# Shailja Sharma

Decision Scientist | Media & Marketing Analytics | CPG | Cross-Market Strategy| Data-Driven Strategy
Bengaluru, Karnataka, India

## Summary

I'm a Decision Scientist focused on media and marketing analytics, turning complex data into strategic business decisions.I led a North America media analytics strategy across 35+ brands, scaling cross-media measurement and integrating 30+ data sources to strengthen TV ratings analysis and investment effectiveness. I've also delivered category-focused business analytics in Canada, partnering with stakeholders to build visualization solutions and drive insights through trend analysis, key driver modeling, market basket analysis, competitor benchmarking, and performance forecasting.I turn analytics into clarity that drives confident business decisions.

## Experience

### Fractal Analytics
Decision Scientist | Media & Marketing Analytics
January 2020 - Present (6 years 10 months)
Greater Bengaluru Area

• Led North America media data and analytics initiatives for P&G, scaling cross-media planning, measurement, and optimization across 35+ brands
